Helpful hints:

- We want you to be able to share your work with us as easily as possible (copy and paste welcome!). Accordingly, all text questions on this form have been set to the system's maximum character limit of 10,000 (1,600 words or about 3.5 pages single-spaced). Please do not feel obligated to fill all this space; **the character count is not an expectation, simply a maximum**. For each question, we've included a suggested character count to guide your response. You'll always have more room if you need it, but if you can say it with fewer words, great!
- Our system allows users to collaborate on grant applications; for more information about the Collaborator feature, check out this tutorial.
- Google Translate is enabled on this application; use the drop-down menu at the top of your screen to automatically translate questions and instructions.
